SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 47, No. 3

L'viv 2004

CONTENTS

<i>Savenko P. O., Protsakh L. P.</i> Variational approach to solution of the problem on eigenvalues with nonlinear vector spectral parameter	7
<i>Makhney A. V., Tatsij R. M.</i> Expansion by eigenvectors in case of simple eigenvalues of singular quasi-differential operator	16
<i>Vozna S. M.</i> Convergence of two-dimensional continued g -fraction	28
<i>Shuvar B. A., Mentynskii S. M.</i> Bilateral algorithms for approximation of solutions to La Vallee Poussin problem	33
<i>Bernakevich I. E., Vahin P. P., Shinkarenko G. A.</i> Mathematical model of acoustic shell-fluid interaction. II. Projection-mesh approximations and their convergence	37
<i>Meleshko V. V.</i> Biharmonic problem for a rectangle: history and the state-of-art	45
<i>Zrazhevskii G. M., Ostriuk V. I.</i> Asymptotic form of canonical products	69
<i>Burak Ya. Yo., Moroz H. I.</i> On two variants of variational formulation for boundary-value problems of nonlinear mechanics for elastic systems	78
<i>Prokopovych I. B.</i> Common properties of nonlinear equations of stress-free strain	87
<i>Prociuk B. V.</i> Application of method of Green's functions for determination of thermoelastic state of layer transversally-isotropic spherical bodies	95
<i>Sulym G. T., Piskozub J. Z.</i> Conditions of contact interaction (A survey)	110
<i>Loveykin A. V.</i> On peculiarity of elastic field in incompressible half-space with V-shaped interface cut at big angles of rib penetration	126

<i>Vaysfeld N. D.</i> Nonstationary problem of stress concentration near a spherical crack, situated inside a truncated cone	134
<i>Kunets Ya. I.</i> Limit equilibrium of a body with thin pointed elastic inclusion under antiplane shear	144
<i>Ulitko I. A., Nikitenko V. N.</i> Forced vibrations of the thin piezoceramic cylindrical shell under fast rotation	149
<i>Zoriy L. M., Kushnir R. M., Sorokatiy M. I.</i> On estimation of exactness of frequency equations solutions in dynamic problems of elastic systems with piecewise-variable characteristics	157
<i>Kravchyshyn O. Z., Chekurin V. F.</i> Non-linear model of elastic disturbance propagation in elastico-strained continuum	163
<i>Yasinsky A. V.</i> Inverse thermoelasticity problem for a circular plate fixed along its edge from angle of rotation	171
<i>Karnaukhov V. G., Kozlov V. I., Revenko Yu. V.</i> Heating of viscoelastic incompressible cylinder at it stationary rolling on a rigid foundation	178
<i>Hachkevych O. R., Mykhailyshyn V. S.</i> Mathematical modeling and investigation of stress state of solids under their cooling in the process of high-temperature annealing	186
<i>Popovych V. S.</i> Analytic-numerical solution of heat conduction problem for thermosensitive wall under conditions of convective heat transfer	199
<i>To the 70-th birth anniversary of corresponding member A. F. Ulitko</i>	205
