SCIENTIFIC JOURNAL FOUNDED IN 1975

Vol. 50, No. 4 L'viv **2007**

C O N T E N T S

Snitko H. A. Inverse problem for parabolic equation in free boundary domain . . 7

Domanska O. V. Boundary-value problems for non-linear elliptic higher order equations without conditions at infinity 19

Shchogolev S. A. On oscillations in quasilinear differential systems with block-diagonal matrix of coefficients of linear part 31

Pipa H. M., Storozh O. G. On a class of perturbations of the Sturm − Liouville operator with bounded positive operator potential 38

Kuzakon V. M., Streltsova I. S. Differential invariants of curve bundles on the Minkowsky plane 49

Podlevskyi B. M. On application of Newton's method to determination of eigenvalues of non-linear spectral problems 55

Lytvyn O. M. Interlineation and interflatation of functions and Rvachov structural method 61

Kurpa L. V., Osetrov A. A. Study of natural vibrations of shallow shells using R -functions method and spline-approximation 83

Nykolyshyn M. M., Zhydyk U. V. Variational statements of problems for coupled thermoelasticity of heterogeneous anisotropic shells 94

Shevchuk V. A. One-dimensional problems of elasticity and thermoelasticity for nonhomogeneous orthotropic hollow cylinders 104

Tokovyy Yu. V. Determination of plane non axially symmetric thermal stresses in radially inhomogeneous ring 113

Yasinskyi A. V. Inverse axially symmetric thermoelasticity problem for half-space with incomplete information about thermal loading 124

Piddubniak O. P., Piddubniak N. G. Axially symmetric sound radiation by elastic hollow cylinder rotating in the air 130

Berning R., Gourjii A. A., Meleshko V. V. Mixing of viscous fluid in rectangular microchannel 140

Bogdanov V. L. Nonaxisymmetric problem on periodic system of penny-shaped mode-I cracks in a solid with initial stresses 149

Dovbnya K. M., Yartemyk V. V. Application of line-spring model to investigation of shell of arbitrary curvature containing internal crack 160

Rychahivskyy A. V., Popovych V. S. Relation between tractions and displacements on the boundary of semi-plane for plane elasticity and thermoelasticity problems 165

Malanchuk N. I. Slip of bodies in vicinity of exfoliation under action of concentrated surface force 173

Halazyuk V. A., Sulym G. T., Nester V. R. Form management of cylindrical cavity under plane strain conditions for body with rheological layers 181

Vlasij O. O. Compression and torsion of shaft with variable inflexibility 191

NEW ITEMS AND INFORMATION

To the 80-th birth anniversary of academician Ya. M. Grigorenko 197

To the 70-th birth anniversary of academician V. T. Grinchenko 200

To the 70-th birth anniversary of professor S. D. Ivasyshen 202

ALPHABETICAL INDEX FOR 2007 (vol. **50**) 204
