MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 52, No. 1

L'viv 2009

CONTENTS

<i>Protsakh N. P.</i> Problem without initial conditions for nonlinear ultraparabolic equation with degeneration	7
<i>Fedus' U. M.</i> Identification of coefficient of derivative with respect to time variable in quasi-linear parabolic equation	20
<i>Vlasiy O. D.</i> Problem with nonlocal conditions for partial differential equations with constant coefficients	34
<i>Golushkov O. V.</i> Nikolett type problem for system of differential equations of fractional order	43
<i>Kuryliak D. B.</i> Solution of one class of dual series equations for associate Legendre functions	48
<i>Shakhno S. M.</i> On two-step iterative process under generalized Lipschitz conditions for the first order divided differences	59
<i>Pyrch N. M.</i> Free homogeneous spaces and their subspaces	67
<i>Selezov I. T., Avramenko O. V., Hurtovyi Yu. V., Naradovyy V. V.</i> Nonlinear interaction of internal and surface gravity waves in two-layer fluid with free surface	72
<i>Karnaikhova T. V.</i> Active damping of forced resonant vibrations of isotropic shallow viscoelastic cylindrical panel under unknown mechanical loading	84
<i>Efimova T. L.</i> Solution of the problems on free torsional vibrations of thick-walled orthotropic inhomogeneous cylinders	92

<i>Rabosh R. V.</i> Dynamic interaction between elastic medium and thin curvilinear piezoelectric inclusion under longitudinal vibration of composite	101
<i>Martynyak R. M., Dmytriv M. I.</i> Finite element investigation of stress-strain state of inhomogeneous rectangular plate	107
<i>Nykolyshyn M. M., Opanasovych V. K., Kurotchyn L. R., Slobodian M. S.</i> Two-axial extension of homogeneous isotropic plate with two equal coaxial cracks with regard for plastic zones near their tips	115
<i>Nazarenko L. V.</i> Damageability of material strengthened by unidirectional orthotropic fibres for exponential function of microdurability	122
<i>Bedzir O. O., Shopa V. M.</i> Contact interaction of a slotted cylindrical shell with a deformable filler allowing for dry friction	132
<i>Marchuk M. V., Khomyak M. M.</i> Hermitian splines as basis functions for finite elements method to construct stress trajectories	138
<i>Kondrat V. F., Hrytsyna O. R.</i> Mechanoelectromagnetic interaction in isotropic dielectrics taking into account a local mass displacement	150
<i>Hachkevych O. R., Terletsii R. F., Holubets T. V.</i> Evaluation of effective electro-physical characteristics for dewy porous materials	159
<i>Nemirovskii Ju. V., Yankovskii A. P.</i> Asymptotic solution of the problem of non-stationary thermal conduction of layer anisotropic inhomogeneous shells .	172
<i>Maksymovych O. V., Solyar T. Ya.</i> Definition of 3D temperature fields in multi-connected orthotropic bodies under heating by heat sources and fluxes . .	188
<i>Demydyuk M. V.</i> Parametric optimization of four-link close-chain manipulator with active and passive actuators	193
