SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 59, No. 2

L'viv 2016

CONTENTS

<i>Bodnar D. I., Kuchminska Kh. Yo.</i> The development of the theory of branched continued fractions in 1996–2016	7
<i>Kalenyuk P. I., Nytrebych Z. M., Kuduk G., Symotyuk M. M.</i> Integral problem for partial differential equations of high order in infinite strip	19
<i>Ivasyshen S. D., Medynsky I. P.</i> On classical fundamental solutions of the Cauchy problem for ultraparabolic equations of Kolmogorov type with two groups of spatial variables	28
<i>Kuchminska Kh. Yo.</i> On convergence of some continued g -fraction generalization	43
<i>Makarov V. L., Demkiv I. I.</i> Abstract interpolation Thiele-type fraction	50
<i>Linchuk Yu. S.</i> Generalized Bessel – Struve operator and some of its properties	58
<i>Kinash N. Ye.</i> Nonlocal inverse problem for a two-dimensional heat equation	67
<i>Il'kiv V. S., Strap N. I.</i> Nonlocal boundary value problem for a differential-operator equation with weak nonlinearity in the spaces of Dirichlet – Taylor series with fixed spectrum	77
<i>Shchogolev S. A., Jashitova V. V.</i> On solutions of oscillating type of the countable differential systems with slowly varying parameters	86
<i>Davydovych V. V.</i> Group classification of a class of Kolmogorov equations with time-dependent coefficients	94

5

<i>Dovbnya K. M., Dundar O. D.</i> Construction and investigation of third-order approximation of solution for thin shallow shells heat equation using Legendre polynomials under stationary heat exchange	101
<i>Antonenko N. M.</i> Problem on axisymmetric torsion of a multilayer plate with elastic bonds between layers	109
<i>Galishin A. Z., Zolochovsky A. A., Sklepus S. N.</i> Investigation of creep and creep-damage of the hollow cylinder based on the spatial and refined shell models	116
<i>Stankevych V. Z., Butrak I. O., Zhabdyskyy I. Ya.</i> Rayleigh wave diffraction on compliant inclusion in an elastic half-space	125
<i>Klimchuk T. V., Ostryk V. I.</i> Smooth contact of the semi-infinite punch with rounded edge and an elastic strip	132
<i>Krutiy Yu. S.</i> Construction of a solution of problem on stability of a bar with arbitrary continuous parameters	142
<i>Obodan N. I., Guk N. A., Magas A. S.</i> Choice of informative input parameters for inverse neural network models of observed systems	152
