SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 60, No. 4

L'viv 2017

CONTENTS

<i>Ivasyshen S. D., Medynsky I. P.</i> Classical fundamental solution of the Cauchy problem for ultraparabolic Kolmogorov-type equations with two groups of spatial variables of degeneration. II	7
<i>Ivasyshen S. D., Turchyna N. I.</i> Green's matrix for model boundary value problem with vector parabolic weight	25
<i>Pukal's'kyi I. D., Yashan B. O.</i> Nonlocal multipoint in time problem with an oblique derivative for a parabolic equation with degeneration	40
<i>Shakhno S. M.</i> Gauss – Newton – Kurchatov method for solving nonlinear least squares problems	52
<i>Savenko P. O.</i> Numerical solution of a two-point boundary-value problem for a system of linear differential equations with non-linear two-dimensional spectral parameter	63
<i>Shakeri Mobarakeh P., Grinchenko V. T., Popov V. V., Soltannia B., Zrazhevsky G. M.</i> Modern methods of numerical-analytic solution of boundary value problems for non-canonical domains	75
<i>Ostrik V. I.</i> The inversion symmetry of solutions of the basic boundary value problems of two-dimensional elastic theory for the wedge	90

<i>Kit H. S., Andriychuk R. M.</i> Thermal stress state of half-space with a free, rigidly, smoothly or flexibly fastened boundary at heat-insulation in a domain located on the plane parallel to boundary	111
<i>Hachkevych O. R., Terletskii R. F., Brukhal' M. B.</i> Modeling and study of the thermal and stress state in the irradiated system, consisting from layers of different transparency, separated by a non-absorbing medium	124
<i>Avramenko O. V., Naradovyi V. V., Luneva M. V., Selezov I. T.</i> Wave propagation conditions in semi-infinite three-layer hydrodynamic system with rigid lid	137
<i>Piddubniak O. P., Piddubniak N. G.</i> Scattering of frequency-modulated sound pulse on circular cylindrical thin elastic shell with a slit	152
<i>Marchuk M. V., Tuchapskyy R. I.</i> Analysis of the identical in form equations of some variants of the theory of plates in polar coordinates	162
ALPHABETICAL INDEX for 2017 (vol. 60)	178
