MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL

FOUNDED IN 1975

Vol. 61, No. 2

L'viv 2018

CONTENTS

<i>Litovchenko V. A.</i> Localization property of regular solutions of the Cauchy problem for a fractal equation of integral form	7
<i>Linchuk Yu. S., Linchuk S. S.</i> Some properties of the generalized Bessel integration operator	18
<i>Chepok O. O.</i> Asymptotic representations of rapidly varying solutions of the second order differential equations with rapidly and regularly varying nonlinearities	26
<i>Vasylyshyn T. V., Strutinskii M. M.</i> Algebras of symmetric *-polynomials on the space \mathbb{C}^2	38
<i>Ladzoryshyn N. B., Petrychkovych V. M.</i> The standard form of matrices over quadratic rings with respect to (z, k) -equivalence and structure of solutions of matrix bilateral linear equations	49
<i>Pasternak Ia. M., Sulym H. T., Ilchuk N. I.</i> Physico-mechanical fields interaction in solids containing thin structural inhomogeneities: a review	57
<i>Kit H. S., Ivas'ko N. M.</i> Two-dimensional problem of thermoelasticity for a half-space with a free, rigidly, smoothly or flexibly clamped boundary with heat-insulation in a parallel to it ribbon-like domain	80

<i>Bogdanov V. L., Kipnis A. L.</i> Investigation of fracture of semi-bounded body compressed along interfacial near-surface crack	91
<i>Kurpa L. V., Tkachenko V. V.</i> Solving the stability problems of layered plates with holes using the R -functions method	100
<i>Yankovskii A. P.</i> Refined model of thermo-elastic-plastic bending of layered plates of regular structure. II. Modeling problems	111
<i>Babich D. V., Dorodnykh T. I.</i> Structural-probabilistic interpretation of the deformation theory of plasticity	124
<i>Shvabyuk V. I., Mikulich O. A.</i> Investigation of dynamic stress state of micro-porous media in the framework of the Cosserat pseudo-continuum	134
<i>Chernukha O. Y., Bilushchak Y. I.</i> Mathematical model of processes of heterodiffusion in two ways at cascade decay of migrating particles	141
<i>Savula Ya. H., Turchyn Yu. I.</i> On one approach to numerical solution of the mass transfer problems with large Peclet numbers	150
NEW ITEMS AND INFORMATION	
<i>To 70-th birth anniversary of Professor H. Sulym</i>	159
