MATHEMATICAL METHODS and PHYSICOMECHANICAL FIELDS

SCIENTIFIC JOURNAL FOUNDED IN 1975

Vol. 62, No. 4 L'viv **2019**

C O N T E N T S

Petrychkovych V. M. Standard forms of matrices over rings with respect to different types of equivalences and their applications in theory of the matrix factorization and matrix equations 7

Gutik O. V., Maksymyk K. M. On a semitopological extended bicyclic semigroup with adjoined zero 28

Medynsky I. P. Correct solvability of the Cauchy problem and integral representations of solutions for ultraparabolic Kolmogorov-type equations with two groups of spatial variables of degeneration 39

Lopushansky A. O., Lopushanska H. P. Inverse problem for fractional diffusion equation in Schwarz-type spaces 49

Kuchminska Kh. Yo. On the Śleszyński – Pringsheim theorem for three-dimensional generalization of continued fraction 60

Bodnar D. I. Bilanyk I. B. Estimates of the rate of pointwise and uniform convergence for branched continued fractions with nonequivalent variables . 72

Ostryk V. I. The inversion symmetry of solutions of the axially symmetric problems of elastic theory for a cone 83

Chekurin V. F., Postolaki L. I., Dyakiv V. V. Polarization-optical parameters of axisymmetric residual stresses of an isotropic dielectric cylinder 95

Kamins'kyi A. O., Dudyk M. V., Reshitnyk Yu. V. Cohesive model of a pre-fracture zone near the tip of the crack outcoming from the corner point of the broken interface 112

Nahirnyj T. S., Tchervinka K. A., Senyk Y. A. Strength of electroconductive non-ferromagnetic layer. Size effect 124

Kushnir R. M., Makhorkin I. M., Makhorkin M. I. An analytic-numerical determination of static thermoelastic state for plane multilayered thermosensitive structures 131

Prokopyshyn I. I. Thermomechanical contact between elastic bodies with nonlinear Winkler surface layers 141

Solyar T. Ya., Vovk O. M. Non-stationary temperature fields in piece-wise homogeneous bands taking into account the frictional heat generation 162

Kalynyak B. M. Stationary temperature field ensuring the absence of thermal stresses in an inhomogeneous rectangular beam 172

NEW ITEMS and INFORMATION

To the 70-th birth anniversary of Volodymyr Oleksandrovych Pelykh 180

ALPHABETICAL INDEX for 2019 (vol. **62**) 183
