## CONTENTS

<i>Shavarovskii B. Z.</i> On the triangular form of $3 \times 3$ -matrix of simple structure relative to semiscalar equivalence . . . . .	5
<i>Sheremeta M. M.</i> Geometric properties of Laplace – Stieltjes integrals . . . . .	29
<i>Shchedryk V. P.</i> Arithmetic properties of the solutions of linear equations . . . . .	44
<i>Medynskiy I. P.</i> On the classical fundamental solution of the Cauchy problem for one class of degenerate parabolic equations . . . . .	50
<i>Lopushanska H. P., Myaus O. M., Pasichnyk O. V.</i> Problem of determination of the source with unknown functions in a fractional diffusion equation . . . . .	61
<i>Andriychuk M. I., Yevstyhneiev B. Ye.</i> Asymptotic method of solution to the problem of electromagnetic field scattering on a set of small impedance particles . . . . .	70
<i>Savenko P. O.</i> Generalization of the nonlinear Urysohn integral equation by introducing additional numerical parameters . . . . .	85
<i>Malachivskyy P. S., Melnychok L. S., Pizyur Ya. V.</i> Chebyshev approximation by Gompertz function . . . . .	95
<i>Kushnir R. M., Zhydyk U. V., Flyachok V. M.</i> Thermal stresses in the orthotropic cylindrical shell of irregular layered structure . . . . .	101
<i>Marchuk M. V., Pakosh V. S., Kharchenko V. M., Khomyak M. M.</i> Effective thermoelastic moduli of discrete composite layers within the framework of the orthotropic material model . . . . .	111

<i>Hachkevych O. R., Terlets'kii R. F., Ivas'ko R. O.</i> Thermoelastic state of a magnetized ferrite plate during the propagation of volume magnetostatic waves .....	123
<i>Shevchuk V. A.</i> The investigation of thermal stress state of A half-space with a multilayer coating under cyclic convective heat exchange with the ambient medium .....	136
<i>Vasil'ev K. V., Sulym H. T.</i> Longitudinal shear of anisotropic bimaterial bodies with band inclusions and interfacial cracks .....	146
<i>Ostryk V. I.</i> Contact problem for interfacial exfoliated semi-infinite inclusion ...	160
<i>Solyar T. Ya., Solyar O. I.</i> Axisymmetric contact problem for half-space with nonspecified areas of interaction .....	178
<i>Vovk O. M.</i> Thermal state of two contacting thermosensitive layers under complex heat exchange .....	188
<i>Sklepus S. M.</i> Method of solving geometrically nonlinear bending problems of complex shape plates .....	198
<i>Horechko O. M., Zavodovska N. O.</i> Dynamic response of preheated rectangular plates and panels to impact loading .....	208
<i>Lymarchenko O. S., Lavreniuk M. V.</i> Application of physics-informed neural networks to solving dynamic problems of the theory of elasticity .....	214
<i>Chaplya Ye. Ya.</i> Mathematical modeling of water softening processes during filtration in porous media .....	224
<i>Chernukha O. Yu., Chuchvara A. Ye.</i> Modeling diffusion processes in a two-phase strip with randomly distributed spherical inclusions located near boundaries of the body. I. Construction of the mathematical model .....	232
NEW ITEMS AND INFORMATION	
<span style="border: 1px solid black; padding: 2px;"><i>Pavlo Romanovych Shevchuk (22.04.1934–05.06.2022)</i></span> .....	247
ALPHABETICAL INDEX for 2022 (vol. <b>65</b> ) .....	249
