NATIONAL ACADEMY OF SCIENCES OF UKRAINE

PIDSTRYHACH INSTITUTE OF APPLIED PROBLEMS OF MECHANICS AND MATHEMATICS

Scientific Journal "MATHEMATICAL METHODS and PHYICOMECHANICAL FILDS"

Year 2001, Vol.44

Vol. 44, No.4, L'viv 2001

CONTENTS

Vasyl'kiv Ya. V.

One criterion of -type finiteness of subharmonic in plane functions

7

Zators'kyy R. A.

Continuous fractions, *K*-polynoms and parapermanents

12

Prokip V. M.

On divisors of polynomial matrices over a factorial domain

26

Vozniak O. G., Ivasyshen S. D.

Unique solvability and property of localization of solution of Cauchy problem for one class of degenerate equations with generalized initial data

27

Bilusiak N. I., Ptashnyk B. Yo.

Boundary-value problem for systems of weakly nonlinear hyperbolic equations with variable coefficients

40

Rvachev V. L., Mikhal E. O.

Boundary-value problems for domains with boundary conditions in the arc inside domain

47

Fedorchuk V. I.

On differential equations of the second order in the space with nontrivial symmetry groups

52

Burak Ya. Yo., Rudavsky Yu. K., Sukhorolsky M. A.

Generalized Fourier solutions of boundary-value problems of the theory of shells

57

Vihak V. M.

Elementary solutions for a plane elasticity problem in rectangular region

63

Ulitko A. F., Loveykin A. V.

Problem of stress determination in elastic space with two wedge-shaped cracks lying in the same plane

70

Kushnir R. M.

Basic equations for piecewise-homogeneous cylindrical shell with inherent stresses and structure imperfections

77

Rogowski B.

Thermal stress problem in a transversally isotropic body with a circular crack system

85

Shvets R. M., Flyachok V. M.

Thermoelasticity of orthotropic layered cylindrical shells

93

Prociuk B. V.

Static and quasi-static axially symmetric thermoelasticity problems for layered bodies with plane-parallel boundaries

103

Karnaukhov V. G., Kozlov V. I., Zhuk Ya. O.,
Karnaukhova T. V.

Thermomechanical coupled theory of harmonic oscillations of multilayered shells with passive physical nonlinear nonelastic layers and piezoelectric distributed inclusions for their vibration control

113

Kunec' Ya. I., Matus V. V., Porokhovs'kyj V. V.

Dynamic stress concentration near an arbitrary-form hole in a half-space

123

Chekurin V. F., Kravchyshyn O. Z.

Problem for elastic disturbance propagation in deformed continuum

129

Whisfeld N. D.

Dynamic torsion problem of shallow truncated cone

135

Hachkevych O. R., Drobenko B. D.

Numerical investigation procedure of electromagnetic and thermal fields in electroconductive cylindrical solids subjected to induction heating

140

Kopylets V. I.
